D **C**
You look like gold to me and I'm not too blind to see,
G
you look like gold, you look like gold.
D **C**
You make me want to say with all the joy you bring,
G
you look like gold, you look like gold.
D **C**
Like the rays down from the sun when a new day has just begun,
G
you look like gold, you look like gold.

C **Em**
(Look, because) I've been fooled before
D **Em** **Em** **D**
but now I know
C **Em** **D** **Em** **Em** **D**
I've made the mistake in the past
C **Em**
but now I know the difference
D **C** **G**
from gold, from gold and brass

N.C. **D**
It's not the kind of gold that you wear
C
but the kind that can feel my care,
G
you look like gold, you look like gold.

D

Some shine when the day is new

C

but fade when the day is through,

G

but not you, you look like gold, I said you look like gold.

C **Em**

But I, I've been wrong before

D **Em** **Em** **D**

but now I know,

C **Em** **D**

I've made mistakes in the past

Em **Em** **D** **C** **Em**

but now, but now I know, now I know, now I know,

D **C** **G**

now I know the difference from gold and brass.

C **Em** **Em** **D** **C** **G**

N.C. **D** **C**

You look like gold to me and I'm down on bending knees,

G

you look like gold, you look like gold.

D **C**

And I just want you to know to me you mean so much more,

G

than all the gold, you look like gold, shine like gold.
